

Patient Group Direction (PGD) Number 555

Supply of paracetamol for fever associated with coronavirus (COVID-19) for individuals aged 12 years or older who are self-isolating by Community Pharmacists

Version – 1.0

The purpose of the PGD is to allow management of fever associated with coronavirus (COVID-19) in individuals aged 12 years and older who are self-isolating by registered pharmacists within Community Pharmacies.

This PGD authorises community pharmacists to supply paracetamol 500mg oral solid dosage form or paracetamol 250mg/5mL oral suspension to individuals aged 12 years and older who are self-isolating with fever and who meet the criteria for inclusion under the terms of the document for a period limited to responding to COVID-19.

PGD for the supply of paracetamol 500mg oral solid dosage form or paracetamol 250mg in 5mL oral suspension, in response to coronavirus (COVID-19) for self-isolated individuals aged 12 years or over with fever

Authorisation

This specimen PGD has been produced by the Area Drugs and Therapeutics Committee Collaborative and the Primary Care Community Pharmacy Group to assist NHS Boards provide uniform services across NHS Scotland. NHS boards should ensure that the final PGD is considered and approved in line with local clinical governance arrangements for PGDs.

The qualified health professionals who may supply paracetamol 500mg oral solid dosage form or paracetamol 250mg in 5mL oral suspension under this PGD can only do so as named individuals. It is the responsibility of each professional to practice within the bounds of their own competence and in accordance with their own Code of Professional Conduct, and to ensure familiarity with the marketing authorisation holder's summary of product characteristics (SPC) for all medicines supplied in accordance with this PGD.

NHS board governance arrangements will indicate how records of staff authorised to operate this PGD will be maintained. Under PGD legislation there can be no delegation. Supply of the medicine has to be by the same practitioner who has assessed the individual under the PGD.

This PGD has been reviewed for NHS Forth Valley by:

Clinical Situation

Indication/ Definition of situation	<p>Symptomatic relief of fever associated with coronavirus (COVID-19) (suspected or confirmed)</p> <p>N.B. Supply under this PGD may be made to a representative as the individual with the fever will be unable to attend the pharmacy in person due to at home isolation. The act of making a supply to the individual's representative does not constitute delegation. The community pharmacist supplying the medicine must undertake the whole episode of care under the PGD.</p> <p>Fever can be defined as patient symptoms of fever OR recorded temperature over 37.8°C. Symptoms of fever may include sweating, shivering, headache, muscle aches.</p> <p>This PGD should be used in conjunction with the recommendations in the current British National Formulary (BNF), British National Formulary for Children (BNFC) and the individual Summary of Product Characteristics (SmPC).</p>
Inclusion Criteria	<ul style="list-style-type: none"> • Individuals aged 12 years or older with fever associated with coronavirus (COVID-19) • Valid consent by individual, individual advocate/carer. Consent must be in line with current individual Boards consent policy • Individual advocate/carer must be present at consultation
Exclusion Criteria	<ul style="list-style-type: none"> • Individual aged under 12 years of age (see separate PGD) • Individuals with known or suspected hypersensitivity to paracetamol and/or other constituents– review Summary of Product Characteristics of the products under consideration • Individuals with severe hepatic impairment • Individuals with severe renal impairment • Individuals currently taking other medicines containing paracetamol • Where there is no valid consent
Precautions and Special Warnings	<p>Paracetamol for supply under this PGD should only be used for individuals with the age range specified in the PGD and with fever.</p> <p>Consider the risk of intentional overdose in patients' prescribed psychotropic medication. Verify appropriateness of supply through discussion with patients own GP if you have any concerns.</p>

Review Date March 2021

	Individuals who are suffering from any other condition out with the PGD specification should be advised to consider other options for supply, e.g. MAS
Cautions /Need for further advice/ Circumstances when further advice should be sought from a doctor	<p>Individuals who have:</p> <ul style="list-style-type: none"> • Fever with new confusion or slurred speech • Constant shivering • Muscle pain or shortness of breath that interferes with activities of daily living (Dressing, eating, washing) • Reduced urinary output in last 24 hours • Skin mottled/ashen e.g. blue or very pale • Worsening of symptoms during home isolation • Fever symptoms that have not improved after 7 days <p>Should be told to contact GP surgery/NHS 24 111 service, or call 999 in an emergency e.g. suspected meningitis or sepsis.</p> <p>Individuals at increased risk of liver toxicity include:</p> <ul style="list-style-type: none"> • Frail elderly • Adults with body weight <50kg • Chronic malnutrition/anorexia <p>Check time and dosing of previous paracetamol doses, ensure 4 hours between doses and maximum daily dose is not exceeded.</p>
Action if Excluded	<p>Advice must be sought - Refer to GP practice (in hours)/the NHS 24 111 service (out of hours) and document in Patient Medication Record (PMR) or Pharmacy Care Record (PCR).</p> <p>Individuals who are suffering from any other condition out with the PGD specification should be advised to consider other options for supply, e.g. MAS</p>
Action if treatment is Declined	<p>Advise on self-care to relieve symptoms and advise to check www.nhsinform.scot and use the COVID-19 Self Help Guide. Make it clear that if their fever shows no improvement after 7 days or if any of their current symptoms worsen, they should contact GP practice (in hours)/the NHS 24 111 service (out of hours) for advice. Record outcome in Patient Medication Record (PMR) or Pharmacy Care Record (PCR) if appropriate.</p>

Description of Treatment

Name of Medicine	Paracetamol		
Form/Strength	500mg tablets, caplets, and capsules (POM) 500mg effervescent tablets and soluble tablets (P) 250mg in 5mL oral suspension (P)		
Route of administration	Oral		
Dosage	Age Range (est. weight ranges)	Dose	Preferred Product
	Adult	1g every 4 – 6 hours to a maximum of 8 tablets/ 4 doses in 24 hours. (N.B. Consider reducing dose in individuals weighing less than 50kg to 500mg every 4 – 6 hours).	500mg tablet
	Children: 16 – 17 years (>50kg)	500mg – 1g every 4 -6 hours to a maximum of 8 tablets/4 doses in 24 hours. (N.B. Consider reducing dose in individuals weighing less than 50kg to 500mg every 4 – 6 hours).	500mg tablet
	12 – 15 years or (<50kg)	500mg every 4 – 6 hours. Maximum of 4 doses in 24 hours.	500mg tablets or 250mg/5mL oral suspension if necessary
Frequency	See Dosage section above		
Duration of treatment	See Dosage section above Where 1 x 100 is supplied then treatment should be up to 7 days		
Maximum or minimum treatment period	Only one supply per individual should be made under this PGD. Where 1 x100 is supplied, use for a maximum of 7 days.		

Review Date March 2021

Quantity to supply	500mg tablets/caplets/capsules/effervescent/soluble tablets [1 x 50 or 1 x 100] 250mg/5mL suspension [1-2 x 100mL or 1 x 200mL]
▼ additional monitoring	No
Legal Status	<p>Paracetamol in a 100 tablet/caplet/capsule pack is a Prescription-only Medicine (POM)</p> <p>Paracetamol in a 100 effervescent/soluble pack is a Pharmacy-only Medicine (P)</p> <p>Paracetamol liquid oral suspension 250mg in 5mL is a Pharmacy-only Medicine (P) or General Sales List (GSL) medicine.</p> <p>In accordance with the MHRA all medicines supplied under a PGD must either be from over-labelled stock, or be labelled appropriately in accordance with the regulatory body guidelines for the labelling of medicines for the professional providing the supply.</p>
Is the use outwith the SPC	No
Storage requirements	<p>As per manufacturer's instructions</p> <p>Tablets/caplets/capsules/Soluble - Store below 25°C in a cool dry place</p> <p>Effervescent - Store below 30°C. Store in the original container to protect from the moisture and light.</p> <p>Suspension – Protect from light and store in original container</p> <p>Ensure preparation is within expiry date</p>
Additional information	None

Warnings including possible adverse reactions and management of these	<p>Hypersensitivity reactions including skin rashes and blood disorders have been reported rarely</p> <p>Speed of absorption may be increased by metoclopramide and domperidone</p> <p>N.B. Oral coumarin anticoagulants (prolonged regular use may enhance the anticoagulant effect. INR should be checked if individual continues to take paracetamol for more than 5 days)</p>
---	---

Review Date March 2021

	For a full list of side effects – refer to the marketing authorisation holder’s Summary of Product Characteristics (SPC). A copy of the SPC must be available to the health professional administering medication under this Patient Group Direction. This can be accessed on www.medicines.org.uk
Reporting procedure for adverse reactions	<p>Pharmacists should document and report all adverse incidents through their own internal governance systems.</p> <p>All adverse reactions (actual and suspected) will be reported to the appropriate medical practitioner and recorded patient’s medical record. Pharmacists should record in their PMR and send an SBAR to the GP as appropriate.</p> <p>Where appropriate, use the Yellow Card System to report adverse drug reactions. Yellow Cards and guidance on its use are available at the back of the BNF or online at http://yellowcard.mhra.gov.uk/</p>
Advice to Individual/carer including written information	<ul style="list-style-type: none"> • Do not take anything else containing paracetamol while taking this medicine • Do not exceed recommended dose • Talk to a doctor at once if the maximum dose is exceeded, even if you feel well. This is because too much paracetamol can cause delayed, serious liver damage • If symptoms of fever show no improvement after 7 days, or symptoms worsen, advise them to contact the NHS 24 111 service • Inform of possible side effects and their management. The medicine Manufacturer Patient Information Leaflet should be given • If taking oral coumarin anticoagulants to have INR checked if they continue to take paracetamol regularly for longer than 5 days • If taking cholestyramine not to take at the same as paracetamol as cholestyramine decreases the absorption of paracetamol. Take paracetamol one hour before or 4 – 6 hours after cholestyramine • Individuals should be informed who to contact should they experience an adverse drug reaction
Monitoring	Not applicable
Follow-up	If symptoms worsen or there is no improvement noted after 7 days, seek advice from the NHS 24 111 service

Review Date March 2021

Additional Facilities	<p>The following should be available at sites where the medication is supplied:</p> <ul style="list-style-type: none"> • Appropriate storage facilities • An acceptable level of privacy to respect individuals right to confidentiality and safety • Access to a working phone • Access to medical support (this may be via the telephone) • Clean and tidy work areas, including access to hand washing facilities or alcohol hand gel • A copy of the current PGD in print or electronically • Access to current BNF (online version preferred)
-----------------------	---

Characteristics of staff authorised under the PGD

Professional qualifications	<p>Registered pharmacist with current General Pharmaceutical Council (GPhC) registration.</p> <p><i>Under PGD legislation there can be no delegation. Supply of the medication has to be by the same practitioner who has assessed the individual under this PGD.</i></p>
Specialist competencies or qualifications	<p>Approved by the organisation as:</p> <ul style="list-style-type: none"> • Competent to assess the individual/person with parenteral responsibilities/individuals representatives' capacity to understand the nature and purpose of the medication supply in order to give or refuse consent. • Aware of current treatment recommendations and be competent to discuss issues about the medication with the individual. • Competent to make a supply of the medicine(s). • Competent to work under this PGD. • Must be familiar with the relevant paracetamol Summary of Product Characteristics (SPC).
Continuing education and training	<p>All professional working under this PGD must:</p> <ul style="list-style-type: none"> • Have undertaken PGD training as required/set out by each individual Health Board • Attends approved training and training updates as appropriate.

Documentation
