Volume: 21 No:1

ADTC Newsletter

New Drugs and Therapeutic Advances

Outlined in this newsletter are the recommendations for new drugs which have been through the locally agreed process (see appendix 1).

Please remember that the ADTC advises prescribers **not** to prescribe any drug that has not been recommended by Scottish Medicines Consortium (SMC) or has not yet been considered by SMC.

Where a medicine is not recommended for use by the Scottish Medicines Consortium (SMC) for use in NHS Scotland, including those medicines not recommended due to non-submission, this will be noted by the Area Drug and Therapeutics Committee New Drugs & Formulary Subgroup and the medicine will not be added to the NHS Forth Valley Formulary.

Where a medicine that has not been accepted by the SMC or NHS Health Improvement Scotland (HIS) following their appraisal on clinical and cost-effectiveness, there are Individual Patient Treatment Request (IPTR) and Peer Approved Clinical System (PACS) processes which provides an opportunity for clinicians i.e. hospital Consultants or General Practitioners to pursue approval for prescribing, on a “case by case” basis for individual patients

A copy of these policies can be found at the Pharmacy page on the Quality Improvement Website on the following link:

<https://staffnet.fv.scot.nhs.uk/guidelines/pharmacy-and-prescribing/>

GUIDELINES AND POLICIES

All guidelines and policies approved by the Area Drug and Therapeutics Committee can be found on the Quality Improvement Website on the link below.

<https://staffnet.fv.scot.nhs.uk/guidelines/>

Drugs Not Approved By the Scottish Medicines Consortium

Prescribing of SMC non-recommended drugs is monitored nationally by the Information Services Directorate (ISD) of the NHS National Services Scotland and reported to the Forth Valley Primary Care Pharmacy Services. As part of our locally agreed process, practices will be routinely notified on a quarterly basis of any items which are not recommended for use, and advised to review therapy.

The Acute Services will similarly be monitoring the use of SMC non-recommended drugs and will feedback usage to their Executives via the Finance Report.

All information provided by this newsletter constitutes the most current advice of the Forth Valley Area Drug and Therapeutic Committee. All SMC information and decisions are correct at time of issue but may be liable to change in the future. For full **SMC advice** on specific drugs please refer to the SMC website www.scottishmedicines.org

Category Classification

Drugs Approved / Not Recommended By SMC

Category 1	Available in line with national guidance (link to SMC Detailed Advice Document (DAD) included)
Category 2	Available in line with local guidance for prescribing
Category 3	Available from a specialist centre in another NHS Board
Category 4	Not available as not recommended for use in NHS Scotland (link to SMC Detailed Advice Document (DAD) included)
Category 5	Not routinely available as local clinical experts do not wish to add the medicine to the formulary at this time or there is a local preference for alternative medicines (link to local guidance if appropriate)
Category 6	Not routinely available as local implementation plans are being developed or the ADTC is waiting for further advice from local clinical experts

			alternative medicines	

SMC NOT RECOMMENDED – The following drugs for the indication stated are all classified as **Category 4** i.e. Not available as not recommended for use in NHS Scotland (link to SMC Detailed Advice Document (DAD) included)

<p>Axicabtagene ciloleucel dispersion for infusion (Yescarta®) SMC Number 2646 https://www.scottishmedicines.org.uk/media/8028/axicabtagene-ciloleucel-non-sub-final-dec-2023-for-website.pdf</p>	<p>Indication under review: Treatment of adult patients with relapsed or refractory follicular lymphoma (FL) after three or more lines of systemic therapy.</p>
<p>Aflibercept solution for injection in pre-filled syringe (Eylea®) SMC Number 2612 https://www.scottishmedicines.org.uk/media/7755/aflibercept-eylea-non-sub-final-july-2023-for-website.pdf</p>	<p>Indication under review: in preterm infants for the treatment of retinopathy of prematurity (ROP) with zone I (stage 1+, 2+, 3 or 3+), zone II (stage 2+ or 3+) or AP-ROP (aggressive posterior ROP) disease.</p>
<p>Amivantmab concentrate for solution for infusion (Rybrevant®) SMC Number 2638 https://www.scottishmedicines.org.uk/media/7987/amivantmab-rybrevant-non-sub-final-nov-2023-for-website.pdf</p>	<p>Indication under review: as monotherapy for treatment of adult patients with locally advanced or metastatic non-small cell lung cancer (NSCLC) with activating epidermal growth factor receptor (EGFR) Exon 20 insertion mutations, whose disease has progressed on or after platinum-based chemotherapy.</p>
<p>Baricitinib film-coated tablets (Olumiant®) SMC Number 2572 https://www.scottishmedicines.org.uk/media/7756/baricitinib-olumiant-final-july-2023-for-website.pdf</p>	<p>Indication under review: for the treatment of severe alopecia areata in adult patients.</p>
<p>Belantamab mafodotin powder for concentrate for solution for infusion (Blenrep®) SMC Number 2597 https://www.scottishmedicines.org.uk/media/8029/belantamab-b-blenrep-final-dec-2023-for-website.pdf</p>	<p>Indication under review: as monotherapy for the treatment of multiple myeloma in adult patients, who have received at least four prior therapies and whose disease is refractory to at least one proteasome inhibitor, one immunomodulatory agent, and an anti-CD38 monoclonal antibody, and who have demonstrated disease progression on the last therapy.</p>
<p>Crizotinib hard capsules (Xalkori®) SMC Number 2621 https://www.scottishmedicines.org.uk/media/7816/crizotinib-xalkori-non-sub-final-august-2023-for-website.pdf</p>	<p>Indication under review: as monotherapy for the treatment of paediatric patients (age ≥6 to <18 years) with:</p> <ul style="list-style-type: none"> • relapsed or refractory systemic anaplastic lymphoma kinase (ALK) positive anaplastic large cell lymphoma (ALCL) • recurrent or refractory anaplastic lymphoma kinase (ALK) positive unresectable inflammatory myofibroblastic tumour (IMT).
<p>Dermatophagoides pteronyssinus and Dermatophagoides farinae oral lyophilisate (Acarizax®) SMC Number 2613 https://www.scottishmedicines.org.uk/media/7752/dermatophagoides-acarizax-non-sub-final-july-2023-for-website.pdf</p>	<p>Indication under review:</p> <ul style="list-style-type: none"> •Adult patients (18-65 years) diagnosed by clinical history and a positive test <ul style="list-style-type: none"> ○ persistent moderate to severe house dust mite allergic rhinitis despite use of symptom-relieving medication ○ house dust mite allergic asthma not well controlled by inhaled corticosteroids and associated with mild to severe house dust mite allergic rhinitis. Patients' asthma status should be carefully evaluated before the initiation of treatment •Adolescents (12-17 years) diagnosed by clinical history and a positive test
<p>Efgartigimod alfa concentrate solution for infusion (Vyvgart®) SMC Number 2561 https://www.scottishmedicines.org.uk/media/7931/efgartigimod-alfa-vyvgart-final-oct-2023-amended-251023-for-website.pdf</p>	<p>Indication under review: as an add-on to standard therapy for the treatment of adult patients with generalised Myasthenia Gravis (gMG) who are anti-acetylcholine receptor (AChR) antibody positive</p>

<p>Lumasiran solution for injection (Oxlumo®) SMC Number 2639 https://www.scottishmedicines.org.uk/media/7993/lumasiran-oxlumo-non-sub-final-nov-2023-for-website.pdf</p>	<p>Indication under review: Treatment of primary hyperoxaluria type 1 (PH1) in all age groups</p>
<p>Mercaptamine capsules (Procysbi®) SMC Number 2571 https://www.scottishmedicines.org.uk/media/7932/mercaptamine-procysbi-resub-final-oct-2023-amended-031123-for-website.pdf</p>	<p>Indication under review: treatment of proven nephropathic cystinosis. Cysteamine reduces cystine accumulation in some cells (e.g. leukocytes, muscle and liver cells) of nephropathic cystinosis patients and, when treatment is started early, it delays the development of renal failure.</p>
<p>Mosunetuzumab concentrate for solution for infusion (Lunsumio®) SMC Number 2542 https://www.scottishmedicines.org.uk/media/7819/mosunetuzumab-lunsumio-final-august-2023-for-website.pdf</p>	<p>Indication under review: as monotherapy for the treatment of adult patients with relapsed or refractory follicular lymphoma (FL) who have received at least two prior systemic therapies.</p>
<p>Osilodrostat tablets (Isturisa®) SMC Number 2640 https://www.scottishmedicines.org.uk/media/7995/osilodrostat-isturisa-non-sub-final-nov-2023-for-website.pdf</p>	<p>Indication under review: treatment of endogenous Cushing's syndrome in adult</p>
<p>Pegunigalsidase alfa concentrate solution for infusion (Elfabrio®) SMC Number 2591 https://www.scottishmedicines.org.uk/media/7933/pegunigalsidase-alfa-elfabrio-final-oct-2023-amended-111023-261023-for-website.pdf</p>	<p>Indication Under Review: for long-term enzyme replacement therapy in adult patients with a confirmed diagnosis of Fabry Disease (deficiency of alpha-galactosidase).</p>
<p>Progesterone vaginal capsules (Utrogestan®) SMC Number 2630 https://www.scottishmedicines.org.uk/media/7934/progesterone-vaginal-capsules-utrogestan-non-sub-final-oct-2023-for-website.pdf</p>	<p>Indication under review: Prevention of preterm birth in women with a singleton pregnancy who have a short cervix (mid-trimester sonographic cervix ≤ 25 mm) and/or a history of spontaneous preterm birth.</p>

Formulary Changes/Additions/Amendments

The following key changes to the Forth Valley Formulary have been agreed by the New Drugs & Formulary Group following recent formulary section reviews. Relevant *ScriptSwitch*[®] messages to support prescribers in primary care have been added to the clinical system and relevant changes will be reflected in the EMIS FV e-Formulary when it is next updated.

The Forth Valley Formulary can be accessed from the staff net homepage under quick links - click on clinical resources then FV formulary or access via the intranet link [Forth Valley Formulary](#) or via the [Forth Valley Formulary](#) internet site <https://pharmacies.nhsforthvalley.com/local-guidance/forth-valley-formulary/>

Formulary Additions

- Optifibre
- Semaglutide (Rybelsus[®])
- Fortisip 2KCAL
